Anti-aging
Sebum control
Cashmere veil*

GO SUSTAINABLE!

India Collection

CARESS MY SKIN

Powders are not all the same, avant-garde functional ingredients with an eco-sustainable profile are realities.

Thanks to **Celus-Bi® Feel 10**, you can permeate your formulation with multi-functional biodegradable texturizer. In addition, with **EMotion Light**, emollient ester with a light and soft touch coming from a low impact process and representing a new driver of innovation, you can be an active part in the eco-sustainable team. Can be your formula completed without a skin-friendly architect approving your eco-building? We are glad to introduce you **CeraFluid**, antiaging sustainable fluid Ceramide-NP conveyed in non-edible olive matrix.
